Roll on Tommy!

Penarth, 27th June 2011 – As affiliate members of the British Association of Landscaping Industries (BALI) and newly approved training providers of the Register of Landbased Operatives (ROLO) Health and Safety awareness course, Penarth Management took the plunge to exhibit at the inaugural BALI Landscaping exhibition at Stoneleigh Park in Warwickshire. The event, which was co-located with Playfair attracted a wide variety of landscaping professionals from across the UK, including Tommy Walsh who came to fame during his TV appearances on the BBC's Ground Force.

During his visit to the BALI Landscaping Show, Tommy paid a visit to the Penarth Management stand and met the company's Managing Director, Jodie Read who presented him with a packet of chocolate Rolo's to celebrate the launch of the new ROLO qualification and the associated Landbased Industry Skills Scheme (LISS) Construction Skills Certification Scheme (CSCS) (known as LISS/CSCS) card. Tommy briefly pondered over whether to accept the

sweets, claiming that his wife 'wouldn't approve' but gladly accepted them on behalf of his daughter who is 'a chocoholic' claimed Tommy.

About Penarth Management

Penarth Management specialises in compliance consultancy and training for Quality, Environmental and Health and Safety management. Specifically, Penarth Management helps other businesses to implement and maintain management systems to recognised standards (e.g. ISO9001:2008, ISO14001:2004, OHSAS18001:2007 and NHSS18) and deliver a range of related quality, environmental, health and safety training courses.
